“ *As you all know Greg loved gaming. Him and I are like brothers. We were always on together. Everyday all day playing Final Fantasy. He would always help everyone in game. A friend to countless gamers across the world. His memory that runs deep in our shared Free Company called S.H.I.E.L.D. and all through our server Exodus will continue to fill us with joy from all the great times we had together. His in game name was William Hartnell. He truly was my brother and I pray that the Prentice family will hold onto those sweet memories because this is just another step in life and Greg may physically be gone but he will never be forgotten and always live strong in all our hearts. My condolences to the Prentice Family and we Love You Greg Prentice aka William Hartnell*

“ The deep pain that is felt at the death of every friendly soul arises from the feeling that there is in every individual something which is inexpressible, peculiar to him alone, and is, therefore, absolutely and irretrievably lost. - Arthur Schopenhauer.

Greg, we are all saddened by the news that our dear friend and family member has gone to the Lord above too soon! Your intelligence, kindness, and overall care for people made you so easy to love. I will always remember you when I see caramel m&m's! It was the small things you did that made my day or my week special - and thank you for that. Thank you for thinking of me when you did not have to. Thank you for listening, thank you for caring, and most of all thank you for being YOU.
