“ It is very difficult to leave a memory of a younger brother whom I thought would live to be 100 plus. He simply moved to a place called Heaven and will now live forever! He shall be missed so much by his family and friends. Bobby was always up to date on things that really matter. He was my primary source for information on so much pertaining to everyday living such as auto and home repairs. While I miss him here, we shall enjoy eternal life in that CITY described in one of my very favorite chapters in the BOOK, Revelation 21. To my brother Bob, It's not just "so long", it's actually I shall see you later!
